SUMMARY

Results-driven Software Engineer with **2+ years of experience** across 4 internships in **fintech, AI/ML, computer vision, and IoT**. Building AI-powered **agentic systems** with hands-on exposure to capital markets, **intelligent automation**, and **cloud-native deployment (GCP, Azure, AWS)**. CGPA 9.36/10; **hackathon award winner** and **technical workshop speaker**.

EXPERIENCE

Software Developer

InfinityPool Finnotech Pvt. Ltd

Jun 2025 – Apr 2026

Pune, India

- Built an **AI-powered Marketing Assistant**, automated end-to-end content pipelines via **n8n** on GCP with CI/CD, using Agentic AI Workflows, SERP API, GNews, and OpenAI GPT models for real-time content generation, cutting manual effort by **~60%**; contributed to financial AI analytics.

AI & Computer Vision Intern – Lead

TAM SYSTECH

Oct 2025 – Nov 2025

Seoul, South Korea (Remote)

- Directed AI intern team to improve CV model accuracy by **25%** using YOLO/CNN architectures and Roboflow; managed end-to-end training pipelines from data preprocessing to production deployment.

Full Stack Developer Intern

Fr. C. R. Institute of Technology

Jan 2024 – Aug 2025

Vashi, Navi Mumbai

- Developed **100+ PHP/MySQL modules** for a College Management System serving **3,000+ users**; optimized UI/backend for **40% faster loads** and **70% higher user satisfaction**; acted as SPOC.

Python Backend Intern

Resolute AI Software

Jun 2024 – Sep 2024

Bangalore, India

- Built **FastAPI** backend for BLE-based indoor tracking (**+40% accuracy**) with Kalman filtering (**-35% noise**); contributed to YOLOv8 + OCR Shelf Analytics pipeline deployed on Azure.

PROJECTS

AI Currency Detection for the Visually Impaired | YOLOv8, Kotlin, TensorFlow, OpenCV, IoT

- Engineered mobile app + IoT device detecting Indian currency at **93.8% accuracy**, targeting **1.5M+ visually impaired users**; won **1st Runner-Up & Best Innovation at HackVerse 2025** (50+ teams).

Market Research Automation Agent | Python, LangChain, FastAPI, SERP API, OpenAI GPT

- Built an AI agent for real-time business insight generation via orchestrated LLM calls and live web data retrieval; presented at **Women in Tech Gen AI Workshop Series**.

Smart Negotiation Analysis for Local Vendors | Python, Scikit-learn, K-Means, RFM Segmentation

- Applied RFM segmentation and K-Means clustering on sales and customer data to recommend optimal pricing strategies for local vendors.

TECHNICAL SKILLS

Languages: Python, Java, C/C++, PHP, JavaScript, Node.js

AI/ML & Frameworks: FastAPI, Flask, LangChain, YOLOv8, TensorFlow, OpenCV, Scikit-learn, Bootstrap

Cloud & DevOps: GCP, AWS, Azure, Docker, CI/CD, n8n

Databases & Tools: MySQL, MongoDB, PostgreSQL, Git, Postman, Roboflow, MQTT, BLE, RFID, LLM APIs

EDUCATION

Fr. Conceicao Rodrigues Institute of Technology (FCRIT), Mumbai University

B.E. – Information Technology (Honors in AI & ML)

Jan 2023 – Jun 2026

Vashi, Navi Mumbai

- CGPA: **9.36 / 10**

Bharati Vidyapeeth Institute of Technology

Diploma in Information Technology

Jul 2020 – Jun 2023

CBD, Navi Mumbai

- Final Year: **91.06%**

ACHIEVEMENTS & LEADERSHIP

Campus Lead, AlgoZenith FCRIT (2024–25): Led 200+ student tech community; organized coding contests, workshops, and mentorship sessions.

Google Cloud Arcade Co-Facilitator (2025): Guided 100+ students in building cloud-native apps on GCP as part of Cohort 1.

IoT & DevOps Workshop Speaker: Conducted 30-hour RFID & IoT training for 40+ undergrad students at FCRIT; delivered Docker & CI/CD session for MCA professors at SIES Nerul.

Certifications: Microsoft Azure AI Fundamentals (Microsoft Learn) | Introduction to Generative AI (Google) | Engineer AI Agents with ADK (Google) | Data Analyst (ULSA)
