SUMMARY

Software Engineer with 2+ years of experience across four internships spanning backend development, computer vision, and cloud automation. Proficient in Python, FastAPI, and REST API design, with hands-on production experience deploying ML pipelines and workflow automation on GCP, Azure, and AWS. CGPA 9.36/10; hackathon award winner, technical workshop speaker, and led a 200+ member developer community. Open to relocation.

EXPERIENCE

Software Developer

Jun 2025 – Apr 2026

InfinityPool Finnotech Pvt. Ltd

Pune, India

- Automated end-to-end content generation pipelines using n8n on GCP with CI/CD, integrating SERP API, GNews, and GPT models, cutting manual content effort by 60%; conducted manual unit and integration testing across individual and linked workflows, and set up GitHub Actions to automate UI code testing.

Computer Vision Intern – Lead (Remote Concurrent)

Oct 2025 – Nov 2025

TAM SYSTECH

Seoul, South Korea (Remote)

- Directed a computer vision intern team, improving model accuracy by 25% using YOLO/CNN architectures and Roboflow; managed end-to-end training pipelines from data preprocessing to production deployment.

Full Stack Developer Intern (Part-time, alongside coursework)

Jan 2024 – Aug 2025

Fr. C. R. Institute of Technology

Vashi, Navi Mumbai

- Developed 100+ PHP/MySQL modules for a College Management System serving 3,000+ users; optimized UI and backend for 40% faster load times and 70% higher user satisfaction; served as sole point of contact.

Python Backend Intern

Jun 2024 – Sep 2024

Resolute AI Software

Bangalore, India

- Built a FastAPI backend for BLE-based indoor tracking (+40% accuracy) with Kalman filtering (-35% noise) within Agile/Scrum sprints; contributed to a YOLOv8 + OCR shelf analytics pipeline deployed on Azure.

PROJECTS

Currency Detection App for the Visually Impaired | YOLOv8, Kotlin, TensorFlow, OpenCV, IoT

- Engineered a mobile app and IoT device detecting Indian currency at 93.8% accuracy, targeting 1.5M+ visually impaired users; won 1st Runner-Up and Best Innovation at HackVerse 2025 (50+ teams).

EtherSpend – Decentralized Expense Tracker | React, Solidity, Ethereum, Ethers.js

- Built a blockchain-based expense tracker with Solidity smart contracts deployed on the Ethereum Sepolia testnet; used Ethers.js and MetaMask for wallet authentication and immutable on-chain expense logging.

Market Research Automation Tool | Python, LangChain, FastAPI, SERP API, GPT

- Built a tool for real-time business insight generation via orchestrated LLM API calls and live web data retrieval; presented at the Women in Tech Workshop Series.

Smart Negotiation Analysis for Local Vendors | Python, Scikit-learn, K-Means, RFM

- Applied RFM segmentation and K-Means clustering on sales and customer data to recommend optimal pricing strategies for local vendors.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, PHP, C/C++

Backend & APIs: FastAPI, Flask, Node.js, REST APIs, LangChain

Frontend: React, Vite, Responsive Design, Component Architecture

Databases: MySQL, MongoDB, PostgreSQL

Cloud & DevOps: GCP, AWS, Azure, Docker, CI/CD, n8n

Machine Learning & CV: YOLOv8, TensorFlow, OpenCV, Scikit-learn

IoT & Embedded Systems: BLE, RFID, MQTT, Kalman Filtering, Signal Processing

Tools: Git, Postman

EDUCATION

Fr. Conceicao Rodrigues Institute of Technology (FCRIT), Mumbai University

Jan 2023 – Jun 2026

B.E. – Information Technology (Honors in AI & ML); CGPA: 9.36/10

Vashi, Navi Mumbai

Bharati Vidyapeeth Institute of Technology

Jul 2020 – Jun 2023

Diploma in Information Technology; Final Year: 91.06%

CBD, Navi Mumbai

Fr. Agnel School, Vashi

Mar 2020

SSC (Class X), Maharashtra State Board; 87.40%

Vashi, Navi Mumbai

ACHIEVEMENTS & LEADERSHIP

Campus Lead, AlgoZenith FCRIT (2024–25): Led 200+ student tech community; organized coding contests, workshops, and mentorship sessions.

Google Cloud Arcade Co-Facilitator (2025): Guided 100+ students in building cloud-native apps on GCP as part of Cohort 1.

Workshop Speaker: Conducted a 30-hour RFID/IoT training for 40+ undergraduates at FCRIT; delivered a Docker & CI/CD session for MCA faculty at SIES Nerul.

CERTIFICATIONS

Java (Basic) – HackerRank | Microsoft Azure AI Fundamentals – Microsoft Learn | Engineer AI Agents with ADK – Google | Data Analyst – ULSA | Voice Assistant with OpenAI's GPT-3 and IBM Watson | Time Complexity Series – Algozenith
